HAND GRINDER

STAT

ELECTRIC HAND GRINDER MODEL EB 15

This grinder is capable of handling a wide range of different metals employed in industrial processing. It operates on A. C., 380 V, 220 V, and 125 V voltages at 50 cy/sec.

VERSATILITY

This machine will be found extremely useful when cleaning larger castings, and smoothing welds. It can also be employed to advantage for machining iron constructions, for trimming sheet metal edges, in foundries, in production plants and repair shops.

HIGH EFFICIENCY

The grinder has a great output on the spindle - 400 W. Moreover, this output is multiplied by the high speed (2800 r. p. m.).

CONVENIENT DESIGN

The spindle of the grinder has been adapted so as to make possible convenient work even in odd corners. The motor is surface cooled and protected against the penetration of grit, resulting from grinding operations.

EQUIPMENT

Normally the grinder is equipped with a 3 m long cable, but without socket, with a 150 dia. x 25 x 32 mm grinding wheel and a special spanner for tightening the grinding wheel nut.

SPECIFICATION

Voltage	3 x 380, 3 x 220, 3 x 125 V
Working speed	2800 r. p. m.
Output on spindle	400 W
Weight (without cable)	10.7 kg
Weight (including cable)	11.5 kg

For safety reasons the motor is not of the pole-change type.

DIMENSIONS

Length of cable including taps - 3 m.

ELECTRIC HAND GRINDER MODEL EB 15

SPARE PARTS TO SUIT THE EB 15 ELECTRIC HAND GRINDER

WHEN ORDERING SPARE PARTS, DO NOT OMIT TO STATE THE FOLLOWING:

- The type of the electric hand grinder (as per plate)
- The serial number of the grinder (as per plate)
- The designation and the position number of the spare part as indicated in the drawing and the list of spare parts given below.
- (E. g.: 1 piece - bearing cover - EB 15/27 - 2009.)

LIST OF SPARE PARTS DELIVERED FOR THE EB 15 ELECTRIC HAND GRINDER

Position	Denomination	Number of pieces for 1 type
1	Slotted nut	1
2	Front grinding wheel flange	1
3	Grinding wheel	1
4	Rear grinding wheel flange	1
5	Screw	2
6	Washer	2
7	Guard	1
8	Screw	3
9	Spring washer	3
10	Switch box	1
11	Motor, complete	1
12	Screw	2
13	Retaining nut	1
14	Power supply cable	1
15	Protective pipe	1
16	Screw	2
17	Switch	1
18	Screw	4
19	Spring washer	4
20	Guard	1
21	Rotor, complete with bearing cover	1
22	Brace ring	1
23	Screw	1
24	Lock washer	1
25	Fan	1
26	Spring	1
27	Bearing cover	1
28	Packing	1
29	Self-aligning ball bearing	1
30	Packing insert	1
31	Rotor, fitted with shaft	1
32	Screw	4
33	Bearing cover with felt packing	1
34	Journal ball bearing	1
35	Lock for screw position 36	1
36	Stator fastening screw	1
37	Stator, complete	1
38	Motor housing	1
39	Packing	1
40	Screw, galvanized	1
41	Washer	1
42	Spring washer	1
43	Spanner	1
44	Screw	1

Other spare parts than those indicated in the above list are not delivered.
